## Aakash A. Shah, MD Orthopaedic Surgeon

Dr. Aakash Shah understands active individuals -- he speaks their language. He has always been interested in athletics and physical fitness. As a Board Certified orthopaedic surgeon, that interest allow him to work closely with patients of all activity levels who need orthopedic care. He is also Board Certified in Sports Medicine.

Dr. Shah is the President of the Medical Staff at Menorah Medical Center.

He has recently been elected by his peer physicians as a "Top Doc" in Orthopaedic Surgery for the Kansas City area. Since 2014, Dr. Shah was recognized as one of "America's Top Orthopedists". Additionally, he has been named by his peers to the Super Doctors list, for the Kansas City area.

Dr. Shah currently serves as an NBA Physician to the Miami Heat. He has served as the Miami Heat's team physician at the NBA Combine from 2011-Present. Additionally, he was the fellow team physician for the Miami Heat in 2009-2010.

He is currently serves as the Medical Director for the neutral physicians for the NFL and NFLPA, and is involved in assisting care for professional football players.

As the Chairman of the Board of Trustees at Menorah Medical Center, Dr. Shah has utilized his perspective as a physician to improve the overall patient experience.

As a leadership consultant, he has performed surgical demonstrations and lectures for other orthopaedic surgeons on innovative medical technology and surgical techniques.

He has also worked with the Kansas City Royals Major League Baseball organization as a first aid physician for several years.

Dr. Shah received his doctorate of medicine from the University of Missouri -- Kansas City School of Medicine, and completed his internship and residency at the University of Missouri -- Kansas City. He then completed a Fellowship in Orthopaedic Sports Medicine, working with the NBA Miami Heat through the Orthopaedics Institute of South Florida, where he did research on predicting longevity of athletes' careers in the NBA.

KC Sports Medicine is conveniently located on the campus at Menorah Medical Center in Overland Park, Kansas.

Handouts

At long last, a CLE program that explains and demonstrates neurological assessment and neurodiagnostic testing. Sports Neurologist and TBI specialist Dr. Allison Gray, Neurophysiologist and TBI specialist Dr. Adam Di Dio, and Speech Language Pathologist and cognitive therapist Ramya Shyam will explain how neurologists and therapists identify, evaluate, and treat traumatic brain injuries utilizing neurodiagnostic testing. The program will focus on diagnostic measures for analyzing and guiding treatment for traumatic brain injuries. The speakers will review many of the diagnostic methods used for identifying the presence of TBI and explain how they can help to confirm or rule out traumatic brain injury—and where applicable suggest methods for treatment and prognosis. Dr. Gray will cover how traumatic brain injuries are diagnosed, and how various brain imaging modalities can be utilized, including MRI with Diffusion Tensor Imaging (DTI). Dr. Di Dio will cover various types of vestibular-ocular testing used in the diagnosis of TBI, including oculomotor screening and videonystagmography (VNG), as well as other tests which have been utilized in TBI cases, including qEEG. Ramya Shyam, MS, CCC-SLP will review how different kinds of cognitive testing can be used in the diagnosis and treatment of patients with traumatic brain injuries. Attorney Larry Cohen will serve as mediator and offer suggestions for how to integrate such testing into casework.

### Larry J Cohen

Cohen Law Firm

Larry J. Cohen, is a certified specialist in injury and wrongful death litigation who has focused in his more than thirty-three years of law practice on serious medical injury and emotional damages cases, including especially brain injury claims. He received his J.D. from Northwestern University in 1985, and has been admitted to practice in Arizona since 1985. Mr. Cohen also has a Master's degree and a Ph.D. from Syracuse University and has participated in a post-doctoral program in clinical neuropsychology. He continues as a member of the adjunct faculty at the Sandra Day O'Connor College of Law at Arizona State University where he has taught courses in professional responsibility, pretrial practice and professional liability. He taught and did research at the University Michigan School of Law and at the University of Illinois-Chicago, and taught on the adjunct faculties of the Arizona Summit School of Law, the Arizona School of Professional Psychology, thereafter Argosy University, Midwestern University, and Norwich University. Mr. Cohen speaks nationally to groups of lawyers, other professionals, insurance companies, governmental entities, risk managers and other interest groups about litigation and trial practice matters, legal ethics, alternative dispute resolution, and issues in brain damage, law and medicine and law and psychology. He has received awards from the Maricopa County Bar Association, the State Bar of Arizona and the State Bar of New Mexico for excellence in continuing legal education. He also received a President's Award from the State Bar of Arizona for contributions in continuing legal education. He has for many years been listed by Southwest Super Lawyers and Arizona's Finest Lawyers as among the best lawyers in Arizona and has been recognized by the National Association of Distinguished Counsel as among the top one percent of lawyers in the United States.

Mr. Cohen may be reached at the following addresses:

Related Seminars and Products

### Dr. Allison R Gray

Dr. Gray is a Board Certified Neurologist and Brain Injury Specialist, originally from the Boston area. She trained in medicine and Neurology in the Northeast, completing her residency training at Massachusetts General Hospital in Boston. She went on to complete fellowship training in Sports Neurology and Concussion in the Boston area, working with athletes at all levels of play, including professional boxers, MMA fighters, and football players, and NCAA collegiate athletes, as well as high school athletes. She moved to Colorado with her family in 2015. Dr. Gray became a physician to help improve the lives of her patients and their families. She feels very grateful every day to have the privilege to participate in the care of her patients and their families dealing with neurological problems.

Related Seminars and Products

### Dr. Adam Di Dio

Dr. Adam Di Dio earned his medical degree at the SUNY Upstate Medical Center in Syracuse, New York, and completed his Neurology residency at the Mount Sinai Medical Center in New York City. Following his residency, he completed a fellowship in Neuropsychology and Neuromuscular disease, also at the Mount Sinai Medical Center. Dr. Di Dio moved to private practice in 2006 and served a two-year stint as the Chief of Medicine at the Bayfront Medical Center, a major level 2 Trauma center. Through the National Football League (NFL), he has evaluated over 150 retired professional athletes for closed head injuries and concussion-related deficits. Dr. Di Dio remains an active member of the American Academy of Neurology (AAN) and regularly attends national and international meetings on traumatic brain injury.

Related Seminars and Products

### Dr. Ramya Shyam

Ramya Shyam, M.S., CCC-SLP, is the owner of Flatirons Cognitive Therapy. She grew up in Connecticut and completed her undergraduate degree at Brandeis University in Massachusetts. She went on to complete a Master of Science degree in Speech-Language Pathology at the MGH Institute of Health Professions, an affiliate of Mass General Brigham.

Ramya has worked in private practice since 2010, specializing in the assessment and treatment of individuals who have experienced cognitive-linguistic changes due to concussion, mild-moderate traumatic brain injury, stroke, dementia, various neurological diseases (e.g., multiple sclerosis), and chemotherapy. She is also skilled in helping teenagers and adults with ADHD or executive functioning difficulties. She completed several graduate-level courses in Special Education and has a background in teaching students ages 7-18.

Ramya has expertise working with individuals who have had concussive injuries and has collaborated with neurologists, orthopedic physical therapists, physiatrists, vestibular physical therapists, chiropractors, neuro-optometrists, and psychologists over the years to ensure that patients get the best care. Even if she is not the person you need to see, she can typically provide guidance to help you get the care you need.

In her spare time, Ramya enjoys spending time with her family, volunteering in her children's schools, lifting weights, reading, and traveling to new places. Her favorite trip was to Peru, where she hiked the Inca Trail.

## Dr. Lardon Biography

Dr. Michael Lardon is one of the premier mental performance coaches in the world, with clients in more than a dozen professional and Olympic sports. His athletes have won major golf championships, Olympic gold medals, Super Bowls and World Series titles, among other achievements. He is an Associate Clinical Professor of Medicine at the University of California San Diego and a Consulting Psychiatrist to the United States Olympic Teams at the Olympic Training Center in Chula Vista, CA.

In addition to his private psychiatry practice in San Diego and work with elite athletes, Dr. Lardon serves as consulting specialist with high-level executive and military clients in the world of peak mental performance. His books, *Mastering Golf's Mental Game* (2014) and *Finding Your Zone* (2008) are considered to be two of the most influential research-based sport performance books published. Dr. Lardon has appeared on the pages of Sports Illustrated, the New York Times and Golf Digest, and has been interviewed on networks such as ESPN, CNN and the Golf Channel. He caddied on the PGA Tour for his brother Brad in the early 1990s, and their odyssey through the 1993 PGA Tour qualifying tournament was chronicled in John Feinstein's bestseller *A Good Walk Spoiled*.

After a career as an internationally-ranked junior and professional table tennis player, Dr. Lardon earned a degree in psychology with honors from Stanford University in 1984, and a medical degree from the University of Texas in 1989. After completing his internship in internal medicine at UCLA in 1990, he spent three years in the University of California, San Diego's psychiatry residency program and another two years as a clinical and research fellow in UCSD's psychopharmacology and psychobiology program. In 1993, Dr. Lardon won the Judd Research Award at UCSD for brain research on peak performance in athletics, and he has published and spoken as a national expert on the subjects of peak performance in athletics and business, performance-enhancing drugs and the treatment of mood disorders.

A native of New York City, Dr. Lardon lives with his wife and three children in San Diego.

[» View Dr. Lardon's Curriculum Vitae](#)

"Having known Dr. Michael Lardon for over twenty years, he has provided timely and critical help for many elite athletes, including myself. Finally Dr. L's book offers this same insight and advice to help people perform their best. His style is without gimmicks; rather, it's the essence of what any true champion follows."

**Cleveland Clinic**

## About

Whether you're an elite athlete, a weekend warrior or just dealing with aches and pains as you age, my mission as a sports medicine orthopaedic surgeon doesn't change: I want to help you stay as active as possible for as long as possible.

I became an orthopedic surgeon to improve people's quality of life and promote a lifetime of physical activity. At the Jameson Crane Sports Medicine Institute at the OSU Wexner Medical Center, I prevent and treat sports injuries for athletes and active people of all ages, together with support from a team of colleagues and partners across the university.

One reason I love Ohio State is, of course, working with the Buckeyes—and sharing that spirit with all our patients. But our team reaches beyond campus borders: the university draws top clinicians with unique expertise from all over the world to collaborate on innovative research and clinical trials.

My own research focuses on clinical outcomes after ACL reconstruction. My role at the Institute has evolved to include recruiting, fundraising and facilitating growth in our academic and clinical programs. As a leader, I hire people who are not only talented but also enthusiastic about our vision for the future. I'm proud that our program has become an industry leader in sports medicine. I want to keep us on top through:

- innovation—inventing new technologies and treatments
- investigation—advancing cutting-edge industry research in our clinical trials
- interaction—sharing all the great work going on under our roof to reach more people in the community

It shouldn't come as a surprise that I like to stay active in my spare time. I enjoy hiking and climbing mountains, and I've done climbs in Ecuador, Peru, Japan, Tanzania, Italy, Switzerland and across the United States. I know just how our patients feel when they can get back to doing something they love.

Specialties include: strategic leadership | clinical research | team building

## Experience

### The Ohio State University Wexner Medical Center

18 years

- **Executive Director, Jameson Crane Sports Medicine Institute**  
2004 - Present · 20 years  
Columbus, Ohio Area  
Supervise, organize and make policy decisions for the Sports Medicine Institute, which utilizes new innovations and technologies to prevent and treat injury and help our community stay active. Build collaborative partnerships across multidisciplinary

team that includes physicians, physical therapists, athletic trainers, engineers, psychologists, nutritionists and PhD researchers.

Day-to-day responsibilities include:

- perform clinical research to evaluate outcomes of ACL...

Show more ▼

### ● **Chief, Division of Sports Medicine, Department of Orthopaedics**

1999 - Present · 25 years

Columbus, Ohio Area

Supervise, advise, mentor and grow the faculty in the Sports Medicine Division of the Department of Orthopaedic Surgery. This includes promoting and enhancing efforts in all three mission areas of patient care, education and research.

### ● **Director, Orthopaedic Sports Medicine Fellowship**

1993 - Present · 31 years

Columbus, Ohio Area

Direct the ACGME accredited orthopaedic sports medicine fellowship at the OSU Wexner Medical Center. This includes:

- screening, interviewing and selecting applicants
- overseeing didactic curriculum of the fellowship
- coordinating clinic rotations
- organizing team coverage and training room exposures for the fellows
- ensuring quality and diversity of surgical experience of fellows

### ● **Interim Chair, Department of Orthopaedics**

2006 - 2009 · 3 years

Columbus, Ohio Area

Responsible for operations of the Department of Orthopaedics, including:

- clinical care of orthopaedic patients
- education program for orthopaedic residents
- fiscal health of department

## **The Ohio State University**

31 years

### ● **Medical Director, Department of Athletics**

2004 - Present · 20 years

Columbus, Ohio Area

Coordinate the interaction of the OSU Wexner Medical Center and the OSU

Department of Athletics to ensure quality medical care for 1000 Division I athletes in 36 sports across six training rooms.

### **Chief Orthopaedist, Department of Athletics**

1993 - 2004 · 11 years

Columbus, Ohio Area

Functioned as lead orthopaedist in medical team that provided care for the varsity athletes in the Department of Athletics at OSU.

### **Judson Wilson Professor of Orthopaedic Surgery**

The Ohio State University College of Medicine

2004 - Present · 20 years

Columbus, Ohio Area

The Judson Wilson Professorship is in recognition of accomplishments in both the academic and clinical arenas.

### **Residency Director, Department of Orthopaedics**

The Ohio State University Wexner Medical Center

2001 - 2001 · less than a year

Columbus, Ohio Area

Organized and oversaw the graduate medical education of the residents in the Department of Orthopaedics.

**Board Certified in Orthopaedic  
Surgery  
Fellowship Trained in Sports  
Medicine  
Medical Director of Kessler  
Lipman Orthopedics**

Specializing in Sports Medicine,  
Shoulder Surgery, Knee Surgery, Elbow  
Surgery

Dr. Kevin J. Kessler is the medical director of Kessler Lipman Orthopedics. He is an assistant clinical professor at Nova Southeastern University College of Osteopathic Medicine and has been an assistant clinical professor at the University of Miami School of Medicine. Dr. Kessler is board certified by the American Board of Orthopaedic Surgeons and a fellow of the American College of

Surgeons (FACS).

physician in South Florida to perform a reverse total shoulder replacement. Dr. Kessler also has over twenty years of experience reconstructing [ACL and PCL injuries](#).

Dr. Kessler has provided orthopedic medical coverage for many of the professional sports teams in South Florida, serving as team physician for the **Miami Hurricanes** football team, **Florida Atlantic University** football team, **New York Yankees** (spring training), **Baltimore Orioles**, **Miami Dolphins**, **Miami Frenzi** arena football team, and the **Florida Marlins** as a consulting physician. He also sees professional boxers and mixed martial arts fighters. Dr. Kessler was even consulted regarding President Clinton's quadriceps injury.

Dr. Kessler attended Hobart College in Geneva, New York for his undergraduate studies. He then earned his medical degree from the University of Health Sciences / Chicago Medical School in North Chicago, Illinois. He completed an internship in general surgery and residency in orthopaedic surgery at New York University / Bellevue Hospital in New York. Dr. Kessler then completed fellowship training in sports medicine at the University of Miami, HealthSouth Doctors Hospital in Coral Gables, Florida.

Dr. Kessler is a member of the American Academy of Orthopaedic Surgeons, Arthroscopy Association of North America, and Orthopaedic Society of Sports Medicine. He has also been a member of the American College of Surgeons, American Medical Association, Broward County Medical Association, Broward County Orthopaedic Society, Eastern Orthopaedic Association, Florida Medical Association, Florida Orthopaedic Society, and Southern Orthopaedic Association. He has published numerous articles in peer-reviewed medical journals. He lectures at orthopedic conferences and learning centers on Rotator cuff repairs and Anterior cruciate ligament reconstructions.

Outside of work, Dr. Kessler has a black belt in karate and enjoys piloting planes.

Home | Brain Injury and Concussion

## BRAIN INJURY AND CONCUSSION

Brain injury and concussions are a common reason for disruption of the the human **connectome**. Even small microscopic brain injuries with normal MRIs can affect cognition. Targeted **brain exercises** help to repair the disrupted connectome. Dr. Devi sees both children and adults with brain injury and concussions and is a neurologic consultant to the National Football League (NFL) Players Association. Patients undergo a thorough neurologic evaluation, focused on aiding recovery from the concussions. Some need a **brain MRI**. Some need **neurocognitive testing** to evaluate changes to thinking and processing skills due to brain injury.

"Treating brain injury and concussions requires understanding the brain and its connections- the connectome. The brain functions like an orchestra with a trillion musicians."

Psychology Today

Why did Nellie, a seventh grader with a concussion, take so long to recover? Vertigo and imbalance are common after brain injury and concussions, often unrecognized and untreated and can significantly impact recovery.

"A decade ago, I had an equestrian accident. I was in a coma, half paralyzed, lost half of my vision and had no short-term memory. I was terrified that I would not be able to resume my work as a literary agent and an editor. Thankfully, Dr. Devi became my neurologist as soon as I was out of the hospital. I immediately adored her- she is deeply compassionate, brilliant, and has a healthy sense of humor- a must when you care for people with brain damage! I worked with her doing brain exercises for 1-1/2 years. While my sight has not returned, my ability to be a devoted mother with an intense career returned, full-force. I attribute my unexpected recovery to all the work that I did with Dr. Devi, and her amazing advocacy for me in so many ways. I will be forever grateful. And now Dr. Devi is one of my clients and I have represented 2 of her books!" Laura Yorke. Cognitive rehabilitation is key to recovering function after head injury.

**Brain exercise** programs for treating concussions run from a few weeks to two years, depending on severity of injury, once to several times a week.

## Biography

Dr. Steven Isono is an Orthopaedic Surgeon specializing in Sports Medicine as well as surgery of the knee and shoulder. He is Board Certified by the American Board of Orthopaedic Surgery in both Orthopaedic Surgery and in Sports Medicine with a Certificate of Added Qualification in Sports Medicine.

Dr. Isono grew up in the East Bay and graduated as the Valedictorian of Oakland High School during which he participated in Basketball, Baseball, Track and Field with All-State Honors in Gymnastics. He received a BA with Honors in Biochemistry from Harvard University in Cambridge, Massachusetts and wrote his Research Thesis on Erythrocyte Abnormalities in Sickle Cell Anemia. He then received his MD from Northwestern University Medical School in Chicago, Illinois and also performed research on Liver Hepatomas during medical school. His Internship in Plastic and Reconstructive Surgery and Residency in Orthopaedic Surgery were both completed at Stanford with additional training in Microsurgery in Japan at the Kyoto University Hospital and the Tokyo Metropolitan Hospital.

He is serving as Team Physician and Consultant for the United States Olympic and Paralympic Committee (USOPSC) for Men's Swimming, Triathlon, Judo, Taekwondo, Track and Field, Men's Rowing, and Boxing), the National Football League Players Association (NFLPA), the Oakland Panthers (Professional Indoor Football League), and Laney College. He was Team Physician for the Golden State Warriors of the National Basketball Association (NBA) for many years and completed this role in 2019. He is also a consultant for the Special Olympics, Ironman World Triathlon Championships, Dew Tour of Action Sports, and Association of Volleyball Professionals.

In addition to covering numerous National and International World Championship competitions, he has served as the Orthopedic Surgeon for TEAM USA for the 2015 XVII Pan American Games in Toronto, Canada, the 2016 XXXI Summer Olympic Games in Rio de Janeiro, Brazil, and 2018 Youth Olympic Games in Buenos Aires, Argentina as well as the 2019 XVIII Pan American Games in Lima, Peru. Dr. Isono was appointed the TEAM USA Head Team Physician at the 2021 XXXII Summer Olympic Games in Tokyo, Japan in July 2021 and the 2022 XXIV Winter Olympic Games in Beijing, China.

Dr. Isono also is a founder of a Non-Profit organization called the One Nation Project located in West Oakland. This program uses sports as an avenue to mentor kids-at-risk and involves kids from lower school through high school. Of his

“first class” of kids, 10 of 11 kids graduated high school and college with a few of his “kids” becoming an Astrophysicist, a Financial Consultant, a Deputy Sheriff, and an Attorney.

Dr. Isono is a member of the American Academy of Orthopaedic Surgeons, American Board of Orthopaedic Surgery, American Orthopaedic Society of Sports Medicine, Olympic Sports Medicine Society, Arthroscopy Association of North America, California Orthopaedic Association, Western Orthopaedic Association, NBA Team Physicians Society, and the American College of Sports Medicine. He also holds the position of an Expert Medical Reviewer for the Medical Board of California.

Among his many honors, Dr. Isono has earned the “Top Doctors in Sports Medicine” award in the California Magazine, Oakland Magazine, and Bay Area Consumer’s Checkbook, the Patients’ Choice Award for California’s Favorite Physicians, and designated among “America’s Top Orthopedists” and “Sports Medicine Physicians” by Consumer’s Research Council of America.
